SIDANTA Dental Clinic first opened in 1998. Our highly-qualified professionals provide comprehensive dental care and excellent customer service. Moreover, we keep up with the latest achievements in the field of dentistry and we constantly improve our knowledge and skills by attending various courses, seminars, and workshops both in Lithuania and abroad. Our clinic offers a full range of services: therapeutic, prosthetic, and endodontic care, implantation, periodontological-surgical treatment, aesthetic restoration, teeth whitening, and other oral hygiene

procedures. At SIDANTA Dental Clinic, we use only top-quality certified dental materials and instruments. Furthermore, our partners include some of the most modern dental laboratories in Lithuania. Also, we offer a wide variety of oral care products supplied by the best known European manufacturers. SIDANTA is a clinic that ensures professional dental care, state-of-the-art treatment, and customer-friendly service - all in a cosy and pleasant atmosphere.
