The first Presidential library in the region was opened in 2016, after an award-winning restoration of a historic building in the heart of Kaunas. The conference hall in the memorial museum, equipped with up-to-date technology, is perfect for boutique events for up to 30 people. Additional value for your events can be created by visiting rooms recreating President Adamkus's office and depicting episodes of his working life in politics, civic and community affairs, culture, and sports, with

personal memorabilia, office equipment, and furniture used by Alma and Valdas Adamkus.
