Booking a leisure flight in a two-seater ultralight plane over Kaunas is quite popular today and we can tell you it \square as romantic as it sounds! leva Liekytė and Lukas Liekis, the kaunastic siblings that basically grew up in the airport, will take care of you. Get excited about seeing the red roofs of the Old Town beneath them, also the Pažaislis monastery, sunsets and, of course, the Kaunas Lagoon which changes its colour almost every week. Enjoy the flight!
