

This house has the features of wooden palaces and ethnic constructions, it belonged to a prominent Lithuanian sculptor Juozui Zikarui (1881-1944). The house of the well-known artist projected in 1932 by technician J. Dubauskas, its construction adapted to houses built on slopes - from the back side two floors constructed, from the facade - one. Later on a laundry with balcony was added to the building and a terrace with a wonderful panorama to

Wood based architecture
