There is more to Kaunas besides the famous basketball team, Laisvės avenue, and the Confluence of Neman and Neris. The medieval old town, Laisvės avenue with its Art Deco and modernist architecture, the stories of ladies and gentlemen from the interwar period, many green parks for romantic walks, art galleries, restaurants intended for delicious discoveries and new beginnings. Kaunas invites you to participate in orienteering games, enjoy thematic routes, to take a swim, ride a bicycle or car, ride a horse, taste local delicacies, get to know the town  history, indulge in health promotion procedures, experience new adventures, have fun, be pleasantly surprised and surprise others. We will organize your party or social

event the way you want it! We also recommend you to try out our new thematic routes and packages.
